

NOW AVAILABLE

RPM & CCM SERVICES

Here for your health, inside and outside the office.

What is RPM?

Remote Patient Monitoring (RPM) lets your care team track important health information, like blood pressure, glucose, or weight from home using simple connected devices. This helps your doctor catch issues early, adjust treatment faster, and keep you healthier between visits.

What is CCM?

Chronic Care Management provides ongoing support for patients with long-term health conditions through regular check-ins, personalized care plans, and coordination with your healthcare team. It helps you stay on track with your treatment, manage symptoms, and improve your overall health between visits.

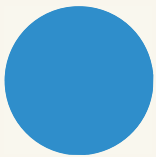

Your provider now offers Remote Patient Monitoring (RPM) and Chronic Care Management (CCM) services to help you stay healthier at home.

With easy-to-use devices and regular check-ins, our team keeps an eye on your vital signs, supports your ongoing conditions, and helps you manage your health between visits, so you feel cared for every day, not just in the exam room.

Ask your provider today!

Your Care, Always Connected.

We Provide the Device

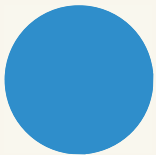

You'll receive an easy-to-use, cellular-connected device, such as a blood pressure cuff, glucose meter, or scale that automatically sends readings to our care team.

(No smartphone, app, or Wi-Fi required!)

We Monitor & Support You Monthly

Monitor blood pressure, weight, and symptoms daily. Catch issues early.

You Receive Professional Support

You'll have a dedicated medical professional assigned to your care - available for questions, medication reminders, and scheduling support. Our extended-care team helps coordinate between your providers so your plan stays on track.
(Real people, real support - not just a device.)

Disclaimer:

This program is not monitored 24/7. If you are experiencing a medical emergency, call 911. RPM and CCM are Medicare-covered services for patients with qualifying conditions. Participation is voluntary and can be canceled anytime. A small copay may apply (typically \$10-\$28/month) if no supplemental insurance is on file. Services are provided in partnership with CADE Medical and your healthcare provider.
